CONSTRUCTION CULTURE
AND SUSTAINABLE
DEVELOPEMENT

Regional architecture and construction trade fair and conference

26th September - 1st October 2023, Zagreb Fair

Organiser:

DAZ

ArhiBau.hr

is committed to the culture of construction and sustainable development, topics of great importance for the future of spatial planning and construction.

Innovative techniques, green technology and education of staff are at the very core concept of this regional project, especially devoted to the New European Bauhaus as well as green and digital transition.

In 2023 you can expect:

- Fair area in pavilions 10a, 11a and TP
- Expert and scientific conference program
- Numerous workshops, panels and presentations
- B2B business meetings
- Entertainment program

The topic for 2023 is:

Future's habitat / Habitat's future!

NEWS IN 2023!

The synergy of four fairs and one festival in seven pavilions on 18.000 m²

This year's ArhiBau.hr is being organized at the Zagreb fair in cooperation with the **Ambienta furniture and interior decoration fair, Hotel & Gastroteh fair, Zagreb Design Week festival and Art Zagreb fair.**

SINGLE ENTRANCE FEE FOR ALL EVENTS!

All events are taking place in connected pavilions of the Zagreb fair, accumulating larger visibility and attendance for all exhibitors through joint appearance.

The total indoor and outdoor fair and festival areas cover 18 thousand square meters, with over 500 stands and 50 thousand visitors expected.

Be a part of this synergy!

Luka Korlaet (Grad Zagreb)

Expert and scientific conference ArhiBau.hr

The topic of this year's ArhiBau.hr fair and conference is **„Future's habitat/ Habitat's future.”**

The conference program on 28 and 29 September 2023 brings together national and international architects, urbanists, construction and other experts interested in researching and developing the futures of living and working spaces and the role architecture and construction will have in shaping our world.

The conference puts forward the main issue of developing the space around us to satisfy the needs of a dynamic and fluctuating world and which strategies can be applied in spatial planning, architecture and construction, management and maintenance in order to shape sustainable, functional and resilient spaces.

Main topics of the ArhiBau.hr expert and scientific conference:

- Space of the future/ future of space
- New European Bauhaus
- Sustainable urban regeneration/ sustainable neighborhoods
- Green infrastructure and circular economy in architecture and construction
- Green European plan
- Green and digital transition
- Decarbonization by 2050
- EU taxonomy and „do no significant harm“ rule
- Certification of sustainable buildings and spaces/ EPD's
- Sustainable architecture in Zagreb and Croatia
- Architecture and tourism – ARTUR
- Post-earthquake building reconstruction – focus on cultural heritage
